Managing Director's Statement

During the 2011 financial year the Company adopted an investing policy that aims to capitalise on its extensive experience in China. The policy focuses on acquiring and developing mineral and energy projects in those commodities and located in those countries which it believes will be of interest to Chinese mining and other groups for either offtake, partnership or sale.

The technical and legal due diligence review on a PRC entity that holds an exploration licence over a thermal coal project in the Western Chinese province of Xinjiang is nearing completion. Management is of the view that the project has the potential to meet the Company's investment criteria.

Management has commenced commercial discussions with the vendor and these are continuing. Management and its advisors have also commenced discussions and negotiations with a large state owned enterprise on joint venture arrangements which, in the event of a successful completion of the transaction, would become the Company's joint venture partner on the project.

The Company's main focus during the year has been on advancing the approvals necessary to facilitate the proposed transaction. The Company has an experienced team based in the Provincial capital Urumqi whose task is to ensure the timely progression of each step of the lengthy approvals process. The majority of the Provincial level approvals have now been obtained.

The focus is now on obtaining the necessary approvals at the Beijing level. The recent changes to the PRC foreign ownership laws for the minerals and energy sector and uncertainties over the pace of rail development and access to it have both been factors in slowing the overall approval process.

The Board is aware that the process is taking some time to reach a conclusion. It notes that in the current competitive environment the acquisition of high quality assets can be expected to take time to complete.

Whilst the management believes that the asset is attractive in that it meets its demanding internal investment criteria, it can give no assurance that these due diligence investigations, approval processes and/or discussions will lead to the successful completion of the transaction.

The Company remains diligent in its assessment of project investment opportunities at all times and is therefore prepared to commit significant expenditure on due diligence and approvals and other studies before committing to a transaction.

Management continues to review investment proposals from many locations around the world and it actively considers each one in light of its competitive advantage of being located in Beijing and able to access the Chinese end user market.

The Company had previously applied for five licences in South West Mongolia. The Mongolian government tender process, which involves a large number of licences and applications by other companies, did not commence in December 2010 as planned. Whilst management will continue to monitor developments it does not anticipate that the tenure for these licences will become available in the near future.

The Company has also now achieved Wholly Owned Foreign Investor (WOFE) status for its activities and investments in China. This is an important step as it allows the Company to make investments and undertake its business activities in China within a regulatory framework that is much closer to that governing local companies than was previously the case.

The Company has also created and appointed four members to a Beijing based Advisory Board. The purpose of the Advisory Board is to provide guidance in relation to the Company's investments in China as well as Chinese international investment interests. The Advisory Board has provided specific advice in relation to investments within China, introductions to relevant government bodies and represented the Company at meetings with various levels of government.

The appointees are all senior officials who have held up to Vice Minister level positions in the Ministry of Lands and Resources. The Advisory Board members are supportive of the Company's investment plans. The Ministry of Lands and Resources is responsible for all exploration and mining activities and is one of the Chinese Government's most senior Ministries ranking alongside the National Development and Reform Commission and the Ministry of Commerce in terms of seniority.

The Company has established relationships with key officials within the Beijing government. Management has actively engaged with officials from various Ministries and has gained a good understanding of China's "Go Out" investment strategy for resources. This will be an area of interest for the Company over the next year.

The Company also continues to work closely with the British and Australian Government's representative organizations in Beijing. During the year Austrade's Minister (Commerce) hosted a delegation to the western Chinese province of Xinjiang in support of Leyshon's ongoing interest in investment in the province. In addition the Managing Director was elected to the Executive Committee of the China Britain Business Council and has gained support for the Company's activities amongst the highest levels of British Government channels.

Management is firmly of the view that notwithstanding the current slowing of the growth in China's economy the demand for energy minerals and metals will continue to be underpinned by the urbanisation of over 400 million people in the coming decade. China's latest Five Year Plan emphasizes "Inclusive Growth" which entails the planned urbanization of a large number of Western China's rural population into second and third tier cities.

This is resulting in significant increases in coal fired power consumption and infrastructure spending such as railways and new city development in these regions. Thermal coal prices have remained strong despite the recent falls in prices for other commodity.

The Company remains of the view that in light of the forecast increasing demand for all types of coal within China over the next ten years, high quality coal assets located close to infrastructure and within transport distance to market will become increasing valuable over time.

During the year the Company successfully completed its readmission to AIM and as part of the readmission placed 30,435,130 new ordinary fully paid ordinary shares at A\$0.23 and raised approximately A\$7 million before costs. The shares were placed with a number of high profile Beijing based institutional investors who are strongly supportive of the Company's business plans.

The placees include funds managed by IDG Capital Partners, which now becomes a major shareholder holding approximately 8% of the Company. IDG Capital Partners is a China-focused investment firm with over US\$2.5 billion capital under management. It was one of the earliest foreign investment funds to enter the Chinese market and since 1992 it has invested in high quality companies with long-term growth potential.

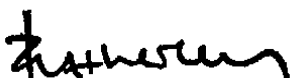

Whilst ensuring that adequate resources are applied at all times in search of a positive outcome the Board is mindful of preserving cash reserves. Management continues to make every effort to minimize exploration and evaluation costs and it has been successful in maintaining low overheads particularly in the areas of travel and administration.

The Company now has seven full time employees based in its office in Beijing, all but one of whom are Chinese. The team work closely with a network of independent technical and corporate consultants in Beijing, Australia and London that it is able to draw on for project evaluation and other corporate matters.

At the date of this report, the Company has approximately A\$53.5 million in cash and accrued interest equivalent to 22 A\$ cents per share and 14 pence per share.

Subsequent to year end the Company announced an on-market share buy back of up to 5.5 million ordinary fully paid shares which will commence on 18 October and will have a maximum duration of 12 months.

Whilst the main focus during the year will be to progress the approvals for the proposed Xinjiang coal acquisition the Company will remain very active in evaluating other investment opportunities both in China and elsewhere that have the potential to meets its investment criteria.

REVIEW OF OPERATIONS

During the 2011 financial year, the Company has been reviewing and undertaking due diligence on a number of investment opportunities, some of which have the potential to meet the Company's investment criteria.

Business Strategies and Prospects

With the support of its shareholders, the Company has adopted an investing policy that aims to capitalise on its extensive experience in China. The policy focuses on acquiring and developing mineral and energy projects in those commodities and located in those countries which it believes will be of interest to Chinese mining and other groups for either offtake, partnership or sale.

The Company continues to review, and in some cases carry out due diligence, on a number of possible projects both internationally and within China. As previously advised, the Company has completed a preliminary technical and legal due diligence review on a PRC entity that holds an exploration licence over a thermal coal project in the Western Chinese province of Xinjiang and is currently reviewing a number of copper and gold projects in China and Australia.

DIVIDENDS

No interim or final dividend has been declared in respect to the financial year ended 30 June 2011 (2010: nil).

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

During the 2011 financial year, the Company successfully completed its readmission to AIM and as part of the readmission placed 30,435,130 new fully paid ordinary shares at A\$0.23, raising approximately A\$7.0 million before costs.

The Company has also achieved Wholly Owned Foreign Investor (WOFE) status for its activities and investments in China. This is an important step as it allows the Company to make investments and undertake its business activities in China within a regulatory framework that is much closer to that governing local companies than was previously the case.

In January 2011 the Company announced that it has created and appointed four members to a Beijing based Advisory Board to provide guidance in relation to the Company's investments in China. The Advisory Board members will provide specific advice in relation to investments within China, provide introductions to relevant government bodies and where appropriate represent the Company at various levels of government. The appointees are all senior officials who have held positions in the Ministry of Lands and Resources.

During the year the Company announced the completion of its share buyback programme which was undertaken during the previous year. In total the Company purchased 2,165,098 shares at an average of A\$0.174 cents and 10.8 pence per share. All share purchases under the buyback programme were carried out during the 2010 financial year.

SUBSEQUENT EVENTS

As at the date of this report there are no matters or circumstances which have arisen since 30 June 2011 that have significantly affected or may significantly affect:

- a) the operations, in financial years subsequent to 30 June 2011, of the Consolidated Entity constituted by Leyshon Resources Limited and the entities it controls from time to time;
- b) the results of those operations; or
- c) the state of affairs, in financial years subsequent to 30 June 2011, of the Consolidated Entity.

LIKELY DEVELOPMENTS

The Company continues to receive investment proposals from many locations around the world and it actively considers each one in light of its competitive advantage of being able to access the Chinese end user market.

The Company remains diligent in its assessment of assets at all times and is therefore prepared to commit significant expenditure on due diligence and other studies before committing to a transaction. The Company can give no assurance that these due diligence investigations and/or discussions will successfully conclude in an acquisition.

In the opinion of the Directors, any further disclosure of information regarding likely developments in the operations of the Consolidated Entity and the expected results of these operations in subsequent financial years may prejudice the interests of the Consolidated Entity and accordingly, has not been disclosed.

ENVIRONMENTAL REGULATIONS

The Consolidated Entity's operations are subject to various environmental laws and regulations under the relevant government's legislation. Full compliance with these laws and regulations is regarded as a minimum standard for all operations to achieve.

Instances of environmental non-compliance by an operation are identified either by external compliance audits or inspections by relevant government authorities.

Pursuant to an agreement between the Company and Newmont Australia Limited ("Newmont"), Newmont is responsible for all environmental obligations in respect of the Mt Leyshon leases in perpetuity regardless of changes to those obligations arising from changes to regulatory requirements and has indemnified the Company to that effect.

- John WS Fletcher (*Chairman*)
- Paul C Atherley (*Managing Director*)
- Richard P Seville (*Non Executive Director*)
- Andrew J Berry III (*Non Executive Director*)

The term 'senior management' is used in this remuneration report to refer to the following persons. Except as noted, the named persons held their current position for the whole of the financial year and since the end of the financial year:

- Peter Niu - *Financial Controller, Leyshon Resources Limited*
- Stacey Apostolou – *Company Secretary*
- Henry Tebar – *Exploration Manager*

There were no other group executives or Company executives during the year.

Remuneration policies

Executive remuneration

The Company's remuneration policy for executive directors and senior management is designed to promote superior performance and long term commitment to the Company. Remuneration packages are set at levels that are intended to attract and retain executives capable of managing the Company's operations. Executives receive a base remuneration which is market related, together with an element of performance based remuneration.

Overall remuneration policies are subject to the discretion of the Board and will be adapted to reflect competitive market and business conditions where it is in the interests of the Company and shareholders to do so. Within this framework, the remuneration committee (established 9 May 2007) considers remuneration policies and practices generally, and determines specific remuneration packages and other terms of employment for executive directors and senior executive management.

Executive remuneration and other terms of employment are reviewed annually by the committee having regard to performance, relevant comparative information and expert advice.

The objective of any short term incentives is to link achievement of the Company's operational targets with the remuneration received by executives charged with meeting those targets. The objective of long term incentives is to reward executives in a manner which aligns this element of their remuneration with the creation of shareholder wealth.

The committee's remuneration policies are designed to align executive's remuneration with shareholders' interests and to retain appropriately qualified executive talent for the benefit of the Company. The main principles of the policies are that:

- Reward reflects the competitive market in which the Company operates;
- Individual reward should be linked to performance criteria; and
- Executives should be rewarded for both financial and non-financial performance.

REMUNERATION REPORT (Cont'd)

The structure of remuneration packages for executive directors and other senior executive management consists of the following:

- Salary – executive directors and senior executives receive a fixed sum base salary payable monthly in cash;
- Short term incentives – through eligibility to participate in performance bonus plans;
- Long term incentives – executive directors are eligible to participate in share option schemes with the prior approval of shareholders. Senior management may also participate in employee share option schemes, with any option issues generally being made in accordance with thresholds set in plans approved by shareholders. The Board however, considers it appropriate to retain the flexibility to issue shares or options to senior management outside of approved employee option plans and in the event that no employee option plan exists; and
- Other benefits - executive directors and senior management, where applicable, are eligible to participate in superannuation schemes.

Non-executive directors' remuneration

In accordance with current corporate governance practices, the structure for the remuneration of non-executive directors and senior management is separate and distinct. Shareholders approve the maximum aggregate remuneration for non-executive directors. The remuneration committee recommends the actual payments to directors and the Board is responsible for ratifying any recommendations, as appropriate. The maximum aggregate remuneration approved for non-executive directors is currently \$250,000 which does not include any share based payments. The Board approves any consultancy arrangements for non-executive directors who provide services outside of and in addition to their duties as non-executive directors.

Non-executive directors are entitled to statutory superannuation benefits if applicable. At the current stage of the Company's development, non-executive directors may also be entitled to participate in equity based remuneration schemes.

All directors are entitled to have their indemnity insurance paid by the Company.

Relationship between the remuneration policy and Company performance

The table below sets out summary information about the Consolidated Entity's earnings and movements in shareholder wealth for the five years to June 2011:

	30 June 2011	30 June 2010	30 June 2009	30 June 2008	30 June 2007
	\$	\$	\$	\$	\$

Share-based Compensation

No options were granted, vested or exercised and 2,000,000 options lapsed in relation to Directors and executive officers during the year. Details of options held by Directors and executive officers during the year are as follows:

	Balance at the start of the year	Granted as remuneration	Exercised	Other changes	Balance at the end of the year	Vested during the year	Vested and exercisable at the end of the year
2011							
Mr John Fletcher	1,000,000	-	-	(1,000,000)	-	-	-
Mr Richard Seville	1,000,000	-	-	(1,000,000)	-	-	-

Note 1 - All options exercisable at \$0.70 each and lapsed on 30 November 2010.

The grant of share options is not directly linked to previously determined performance milestones or hurdles as the current stage of the Group's activities make it difficult to determine effective and appropriate key performance indicators and milestones. No options were forfeited during the year.

There is currently no Board policy in relation to the person granted the option limiting his or her exposure to risk in relation to the securities as the options are issued in addition to their separate remuneration package.

NON-AUDIT SERVICES

The Directors are satisfied that the provision of non-audit services during the year by the auditor (or by another person or firm on the auditor's behalf) is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The Audit Committee assesses the provision of non-audit services by the auditors to ensure that the auditor independence requirements of the Corporations Act 2001 in relation to the audit are met.

Details of amounts paid or payable to the auditor for non-audit services provided during the year by the auditor are outlined in note 5 to the financial statements.

AUDITOR'S INDEPENDENCE DECLARATION

Section 307C of the Corporations Act 2001 requires our auditors, Deloitte Touche Tohmatsu, to provide the directors of Leyshon Resources with an Independence Declaration in relation to the audit of the attached Financial Statements. This Independence Declaration is included in this Financial Report at page 14 and forms part of this Directors' Report.

Signed in accordance with a resolution of the Board of Directors.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These financial statements are a general purpose financial report which has been prepared in accordance with the Corporations Act 2001, Accounting Standards and Interpretations, and comply with other requirements of the law.

Accounting Standards include Australian equivalents to International Financial Reporting Standards ('A-IFRS'). Compliance with A-IFRS ensures that the financial statements and notes of the Company and the Group comply with International Financial Reporting Standards ('IFRS').

The financial statements were authorised for issue by the directors on 30 September 2011.

Basis of preparation

The financial report has been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars, unless otherwise noted.

Adoption of new and revised Accounting Standards

In the current year, the Consolidated Entity has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board ("AASB") that are relevant to its operations and effective for annual reporting periods beginning on or after 1 July 2010. The standards adopted are:

- AASB 124 : "Related Party Disclosures"
- AASB 2009-5 : "Further Amendments to Australian Accounting Standards arising from the Annual Improvements Project"
- AASB 2009-8 : "Amendments to Australian Accounting Standards - Group Cash-Settled Share-based Payment Transactions"
- AASB 2009-10 : "Amendments to Australian Accounting Standards - Classification of Rights Issues"
- AASB 2010-3 : "Amendments to Australian Accounting Standards arising from the Annual Improvements Project"
- AASB Interpretation 19 : "Extinguishing Liabilities with Equity Instruments"

The adoption of these new and revised Standards and Interpretations has resulted in some disclosure changes being made.

At the date of authorisation of the financial report, the Standards and Interpretations listed below were in issue but not yet effective.

Initial application of the following Standard will not affect any of the amounts recognised in the financial report, but will change the disclosures presently made in relation to the Group and the Company's financial report:

Critical accounting judgements and key sources of estimation uncertainty

In the application of the Group's accounting policies, which are described in Note 1, the Directors' are required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Key sources of estimation uncertainty

There are no key assumptions concerning the future, and other key sources of estimation uncertainty at the balance sheet date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Significant accounting policies

The following significant accounting policies have been adopted in the preparation and presentation of the financial report:

(a) Going Concern Basis

The financial report has been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

(b) Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries) as at 30 June 2011 and the results of all subsidiaries for the year then ended. Leyshon Resources Limited and its subsidiaries together are referred to as the Group or the Consolidated Entity. A list of subsidiaries is provided in Note 21.

Subsidiaries are all those entities (including special purpose entities) over which the Group has the power to govern the financial and operating policies so as to obtain benefits from their activities, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group (refer to note 1(h)). Subsequent to initial recognition, investments in subsidiaries are measured at cost in the Company's financial statements.

Intercompany transactions and balances, and unrealised gains on transactions between Group companies, are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated income statement and statement of financial position respectively.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(c) Interests in Joint Ventures

The Group accounts for its interests in jointly controlled entities with proportionate consolidation. Proportionate consolidation is a method of accounting whereby the Group's share of each of the assets, liabilities, income and expenses of its jointly controlled entities is reported on a line-by-line basis in the consolidated entity's financial statements. The Group considers that proportionate consolidation provides users of the financial report with reliable and relevant information.

(d) Foreign Currency Translation

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Australian dollars, which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the income statement.

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities for each balance sheet presented are translated at the closing rate at the date of that balance sheet;
- Income and expenses for each income statement are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the dates of the transactions); and
- All resulting exchange differences are recognised as a separate component of equity in the foreign currency translation reserve.

Where a foreign operation is sold or borrowings repaid, a proportionate share of such exchange differences are recognised in the income statement as part of the gain or loss on sale.

Goodwill and fair value adjustments arising on the acquisition of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate.

(e) Revenue Recognition

Revenue is measured at the fair value of the consideration received or receivable. The following specific recognition criteria must also be met before revenue is recognised:

Interest

Interest is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(f) Income Tax

The income tax expense or income for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantively enacted for each jurisdiction. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Current and deferred tax balances attributable to amounts recognised directly in equity are also recognised directly in equity.

Leyshon Resources Limited and its wholly owned Australian controlled entities have not implemented the tax consolidation legislation.

(g) Operating Leased Assets

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Operating leased assets, where the lessor effectively retains substantially all of the risks and benefits of ownership of the leased item, are not capitalised and rental payments are expensed to the income statement over the lease term on a straight line basis except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

(h) Business Combinations

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The consideration for each acquisition is measured at the aggregate of the fair values (at the date of exchange) of assets given, liabilities incurred or assumed, and equity instruments issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit or loss as incurred.

Where applicable, the consideration for the acquisition includes any asset or liability resulting from a contingent consideration arrangement, measured at its acquisition-date fair value. Subsequent changes in such fair values are adjusted against the cost of acquisition where they qualify as measurement period adjustments (see below). All other subsequent changes in the fair value of contingent consideration classified as an asset or liability are accounted for in accordance with relevant Standards. Changes in the fair value of contingent consideration classified as equity are not recognised.

Where a business combination is achieved in stages, the Group's previously held interests in the acquired entity are remeasured to fair value at the acquisition date (i.e. the date the Group attains control) and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss, where such treatment would be appropriate if that interest were disposed of.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under AASB 3(2008) are recognised at their fair value at the acquisition date, except that:

- deferred tax assets or liabilities and liabilities or assets related to employee benefit arrangements are recognised and measured in accordance with AASB 112 Income Taxes and AASB 119 Employee Benefits respectively;
- liabilities or equity instruments related to the replacement by the Group of an acquiree's sharebased payment awards are measured in accordance with AASB 2 Share-based Payment; and
- assets (or disposal groups) that are classified as held for sale in accordance with AASB 5 Noncurrent Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (see below), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amounts recognised as of that date.

The measurement period is the period from the date of acquisition to the date the Group obtains complete information about facts and circumstances that existed as of the acquisition date – and is subject to a maximum of one year.

(i) Impairment of Assets

Assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment where an asset does not generate cash flows that are independent from other assets, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units).

(j) Cash and Cash Equivalents

"Cash and cash equivalents" includes cash on hand, deposits held at call with financial institutions, other short-term highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities on the statement of financial position.

(k) Receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost less provision for doubtful debts. Trade receivables are due for settlement no more than 30 days from the date of recognition.

(l) Other Financial Assets

The Group classifies its investments in the following categories: financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments, and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(i) Financial assets at fair value through profit or loss

This category has two sub-categories: financial assets held for trading, and those designated at fair value through profit or loss on initial recognition. Derivatives are also categorised as held for trading unless they are designated as hedges. Assets in this category are classified as current assets if they are either held for trading or are expected to be realised within twelve months of the balance sheet date.

(ii) Loans and receivables

Trade receivables, loans and other receivables are recorded at amortised costs less impairment.

(m) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the balance sheet date. The quoted market price used for financial assets held by the Group is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price.

(n) Non-current assets held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

(o) Property, Plant and Equipment

Plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

Plant and equipment are depreciated at rates based upon their expected useful lives as follows:

	Life	Method
Plant and Equipment	2 - 15 years	Diminishing value

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(i)). Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in the income statement.

(p) Payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial period which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

(q) Employee Benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave, accumulating sick leave and long service leave expected to be settled within twelve months of the reporting date are recognised in provisions in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable.

The liability for long service leave not expected to be settled within 12 months is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Contributions to the defined contribution superannuation fund are recognised as an expense as they become payable. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(r) Issued Capital

Issued and paid up capital is recognised at the fair value of the consideration received by the Company. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(s) Dividends

Provision is made for the amount of any dividend declared on or before the end of the year but not distributed at statement of financial position date.

(t) Earnings per Share (EPS)

Basic earnings per share is calculated by dividing the consolidated profit/(loss) attributable to equity holders of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the year, adjusted for bonus elements in ordinary shares issued during the year.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(u) Exploration and evaluation expenditure

Exploration and evaluation expenditure encompasses expenditures incurred by the Group in connection with the exploration for and evaluation of mineral resources before the technical feasibility and commercial viability of extracting a mineral resource are demonstrable.

Exploration and evaluation expenditure incurred by the Group is accumulated for each area of interest and recorded as an asset if:

- (1) the rights to tenure of the area of interest are current; and
- (2) the exploration and evaluation expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale.

For each area of interest, expenditure incurred in the acquisition of rights to explore is capitalised, classified as tangible or intangible, and recognised as an exploration and evaluation asset. Exploration and evaluation assets are measured at cost at recognition. Exploration and evaluation expenditure incurred by the Group subsequent to acquisition of the rights to explore is expensed as incurred until it is determined that expenditures are expected to be recouped and an asset is recognised.

(v) Development Expenditure

Development expenditure represents the costs incurred in preparing mines for production. The costs are carried forward to the extent that these costs are expected to be recouped through the successful exploitation of the Company's mining properties and then amortised over the life of the reserves associated with the area of interest once mining operations have commenced.

Development expenditure is reviewed at each reporting date to establish whether an indication of impairment exists. If any such indication exists, the recoverable amount of the development expenditure is estimated to determine the extent of the impairment loss (if any). Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in previous years.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

(w) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

Cash flows are included in the Cash Flow Statement on a gross basis and the GST components of cash flows arising from investing and financing activities, which are recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(x) Share Based Payments

Share based payments may be provided to directors, employees, consultants and other advisors.

For shares issued as payment, the fair value of the shares issued is recognised as an expense with a corresponding increase in equity. The fair value of the shares issued is based on the volume weighted average share price on the ASX for the previous 10 trading days before they are issued.

For share options granted, the following treatment is adopted:

The fair value of options granted is recognised as an expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the holders become unconditionally entitled to the options.

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

The fair value of the options granted excludes the impact of any non-market vesting conditions. Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each balance sheet date, the entity revises its estimate of the number of options that are expected to become exercisable. The expense recognised each period takes into account the most recent estimate.

Upon the exercise of options, the balance of the reserve relating to those options is transferred to share capital.

Tax Consolidations

Legislation to allow groups, comprising a parent entity and its Australian resident wholly-owned entities, to elect to consolidate and be treated as a single entity for income tax purposes was substantively enacted on 21 October 2002. The Company and its wholly owned Australian resident entities are eligible to consolidate for tax purposes under this legislation.

The Board has not yet resolved to consolidate eligible entities within the Consolidated Entity for tax purposes. The Board will review this position annually, before lodging of that year's income tax return.

26. JOINTLY CONTROLLED ENTITY

The Group was not a venturer in any jointly controlled entities at 30 June 2011 (2010: nil),

27. FINANCIAL RISK MANAGEMENT

Overview

This note presents information about the Company's and Group's exposure to credit, liquidity and market risks, their objectives, policies and processes for measuring risk, and management of capital.

The Company and the Group does not use any form of derivatives as it is not at a level of exposure that requires the use of derivatives to hedge its exposure. Exposure limits are reviewed by management on a continuous basis. The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Management monitors and manages the financial risks relating to the operations of the group through regular reviews of the risks.

Significant Accounting Policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which revenues and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 1 to the financial statements.

Net Fair Value

The carrying amount of financial assets and financial liabilities recorded in the financial statements represents their respective net fair values, determined in accordance with the accounting policies disclosed in Note 1 to the financial statements.

Credit risk

Credit risk refers to the risk that counter-party will default on its contractual obligations resulting in financial loss to the consolidated entity. The consolidated entity has adopted the policy of only dealing with creditworthy counter-parties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults. The consolidated entity measures credit risk on a fair value basis. The consolidated entity does not have any significant credit risk exposure to any single counter-party.

27. FINANCIAL RISK MANAGEMENT (cont'd)

Cash and cash equivalents

The Group limits its exposure to credit risk by only investing in liquid securities and only with counterparties that have an acceptable credit rating.

Trade and other equivalents

As the Group operates primarily in exploration activities, it does not have trade receivable and therefore is not exposed to credit risk in relation to trade receivables.

The Company and Group have established an allowance for impairment that represents their estimate of incurred losses in respect of other receivables (mainly relates to staff advances and security bonds) and investments. The management does not expect any counterparty to fail to meet its obligations.

Exposure to credit risk

The carrying amount of the Group's financial assets represents the maximum credit exposure. The Group's maximum exposure to credit risk at the reporting date was:

	2011	2010
	\$	\$
Loans and receivables	743,088	1,145,616
Cash and cash equivalents	52,901,790	46,193,725
	<u>53,644,878</u>	<u>47,339,342</u>

Impairment losses

None of the Groups' other receivables are past due (2010: Nil)

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages liquidity risk by maintaining adequate cash reserves from funds raised in the market and by continuously monitoring forecast and actual cash flows. The Group does not have any external borrowings.

As a result of the Company completing the sale of the Group's interests in Black Dragon Mining Company Limited, during the prior year, which held the Zheng Guang development project, an amount of more than A\$34 million cash and cash equivalents was received. Accordingly it is unlikely that the Group will need to raise additional capital in the next 12 months to meet its currently known obligations.

27. FINANCIAL RISK MANAGEMENT (cont'd)

The following are the maturities of financial assets including estimated interest receipts and excluding the impact of netting agreements of the Group:

	2011 \$	2010 \$
Less than 6 months	53,644,878	47,339,342
6 months to 1 year	-	-
1 to 5 years	-	-
Over 5 years	-	-
	<u>53,644,878</u>	<u>47,339,342</u>

The following are the maturities of financial liabilities, including estimated interest payments and excluding the impact of netting agreements of the Group:

	2011 \$	2010 \$
Less than 6 months	183,873	158,455
6 months to 1 year	-	-
1 to 5 years	-	-
Over 5 years	-	-
	<u>183,873</u>	<u>158,455</u>

All financial liabilities of the Group and Company are non-interest bearing.

Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposure within acceptable parameters, whilst optimising the return. The Group manages market risk by ensuring it only holds short-term, predominantly fixed interest financial instruments with maturities of less than six months.

Currency Risk

The Group is exposed to currency risk on investments, purchases and borrowings that are denominated in a currency other than the respective functional currencies of Group entities, which is primarily the Australian Dollar (AUD). The currencies in which these transactions primarily are denominated are USD, GBP, HKD and RMB.

The Group has not entered into any derivative financial instruments to hedge such transactions.

The Group's investments in its subsidiaries are not hedged as those currency positions are considered to be long term in nature.

27. FINANCIAL RISK MANAGEMENT (cont'd)

Exposure to Currency Risk

The Group's exposure to foreign currency risk at balance date based on notional amounts was as follows:

	A\$				
	RMB	USD	HKD	GBP	Total
30 June 2011					
<u>Financial Assets</u>					
Cash and cash equivalents	60,762	100,408	36,043	661	197,874

Net balance sheet exposure	3,845	110,763	-	(2,198)	112,410

Sensitivity analysis

A 20 percent strengthening of the Australian dollar against the following currencies at 30 June would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2010.

	Other Equity A\$	Profit or loss A\$
30 June 2011		
RMB	-	(8,951)

RMB	-	769
USD	-	22,153
HKD	-	-
GBP	-	440
	-	22,482

27. FINANCIAL RISK MANAGEMENT (cont'd)

A 20 percent weakening of the Australian dollar against the above currencies at 30 June would have had an equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remain constant.

Interest rate risk

The Group is exposed to interest rate risk (primarily on its cash and cash equivalents), which is the risk that a financial instrument's value will fluctuate as a result of changes in the market interest rates on interest-bearing financial instruments. The Group does not use derivatives to mitigate these exposures.

The Group adopts a policy of ensuring that as far as possible it maintains excess cash and cash equivalents in short terms deposit at interest rates maturing over 90 day rolling periods.

At the reporting date the interest rate profile of the Group's and the Company's interest-bearing financial instruments was:

	Weighted Average Effective Interest Rate	Variable Interest Rate	Fixed Interest Rate	Total
	%	\$	\$	\$
2011				
Financial Assets				
Cash and cash equivalents	6.13%	52,901,790	-	52,901,790

Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis for 2010.

	Other Equity A\$	Profit or loss A\$

27. FINANCIAL RISK MANAGEMENT (cont'd)

Commodity Price Risk

The Group is still operating primarily in the exploration and evaluation phase and accordingly the Group's financial assets and liabilities are not yet subject to commodity price risk.

Capital Management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern and to maintain a strong capital base sufficient to maintain future exploration and development of its projects. In order to maintain or adjust the capital structure, the Group may return capital to shareholders, issue new shares or sell assets to reduce debt. The Group's focus has been to raise sufficient funds through equity to fund exploration and evaluation activities.

There were no changes in the Group's approach to capital management during the year. Risk management policies and procedures are established with regular monitoring and reporting.

Neither the Company nor any of its subsidiaries are subject to externally imposed capital requirements.

The capital structure of the Group consists of equity attributable to equity holders of the parent, comprising issued capital, reserves and retained losses as disclosed in Notes 14, 15 and 16 respectively.

28. SHARE BASED PAYMENTS

The Company does not have a formal employee share option plan, however the Board has from time to time granted shares or options to employees and officers on a discretionary basis as it is considered that this provides a cost-effective and efficient means of remunerating and incentivising employees. In addition, shareholders have in General Meeting approved the granting of all incentive options to Directors. The share based payment expenses have been recognised in respect of the fair value of shares or options granted as remuneration.

Valuation of Securities

30 June 2011

There were no share based payments or options granted by the Company during the year.

30 June 2010

There were no share based payments or options granted by the Company during the year.

Mount Leyshon Assets

As part of the restructure of the Company in November 2001 that saw the Company cease to be a subsidiary of Newmont Australia Limited (then Normandy Mining Limited) ("Newmont"), the Company and Newmont entered into a Management Agreement on 30 November 2001 in respect of the closure of the Mt Leyshon mine ("Management Agreement"). It was intended and agreed that Newmont would implement a mine closure plan and be responsible for all ongoing environmental obligations associated with the Mt Leyshon assets.

Pursuant to the terms of the Management Agreement, Newmont agreed to be responsible in perpetuity for the Company's rehabilitation obligations arising out of the Mt Leyshon mine site and has agreed to provide an indemnity to the Company in respect of all environmental obligations in relation to or as a result of mining activities at Mt Leyshon.

It is not considered that the Company carries any risk of any substantive liability for anything done or omitted to be done, at the Mt Leyshon mine site, prior to 2001.

29. PARENT ENTITY DISCLOSURES (cont'd)

(d) Contingent liabilities of the parent entity (cont'd)

Prior to the restructure of the Company in November 2001, the Company had previously entered into Compensation Agreements with landholders part of whose lands were covered by the Company's mining leases at the Mt Leyshon mine site. The entry into Compensation Agreements with landholders is a statutory requirement for the holder of a mining lease in Queensland. Compensation had been paid in advance under each landholder Compensation Agreement. In each case advance compensation was only paid until 2002 or thereabouts on the basis that production from the Mt Leyshon mine site would have ceased. The Company has a continuing primary responsibility to the landholders under the Compensation Agreements whilst it remains the holder of mining leases in Queensland and Newmont continues to undertake rehabilitation activities.

The Company is seeking to reach a settlement under the Compensation Agreements to remove the necessity for ongoing payments into the future. At this stage, it is likely that the Company will reach settlement on one of the agreements for an amount in the expected range of \$1 to \$1.5 million over the next 18 months. Discussions in relation to the other agreement are ongoing.

Independent Auditor's Report to the members of Leyshon Resources Limited

Report on the Financial Report

We have audited the accompanying financial report of Leyshon Resources Limited, which comprises the statement of financial position as at 30 June 2011, the income statement, the statement of comprehensive income, the statement of cash flows and the statement of changes in equity for the year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity, comprising the company and the entities it controlled at the year's end or from time to time during the financial year as set out on pages 15 to 52.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the consolidated financial statements comply with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control, relevant to the entity's preparation of the financial report that gives a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Independence Declaration

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Leyshon Resources Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Opinion

In our opinion:

- (a) the financial report of Leyshon Resources Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the consolidated financial statements also comply with International Financial Reporting Standards as disclosed in Note 1.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 8 to 13 of the directors' report for the year ended 30 June 2011. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion the Remuneration Report of Leyshon Resources Limited for the year ended 30 June 2011, complies with section 300A of the *Corporations Act 2001*.

CORPORATE GOVERNANCE STATEMENT

Leyshon Resources Limited is committed to creating and building sustainable value for shareholders and protecting stakeholder interests. The Company recognises that high standards of corporate governance are essential to achieving that objective. The Company continues to develop and review its corporate governance practices. This statement summarises the Corporate Governance policies and practices adopted by the Company.

Additional information can be found on the Company's website at www.leyshonresources.com.

Role of the Board

The Board represents shareholders' interests in continuing a successful business, which seeks to optimise medium to long-term financial gains for shareholders. By not focusing on short-term gains for shareholders, the Board believes that this will ultimately result in the interests of all stakeholders being appropriately addressed when making business decisions.

The Board is responsible for ensuring that the Group is managed in such a way to best achieve this desired result. Given the current size and operations of the business, the Board currently undertakes an active, not passive role.

The Board is responsible for evaluating and setting the strategic directions for the Group, establishing goals for management and monitoring the achievement of these goals. The Managing Director is responsible to the Board for the day-to-day management of the Group.

The Board has sole responsibility for the following:

- Appointing and removing the Managing Director and any other executives and approving their remuneration;
- Appointing and removing the Company Secretary / Chief Financial Officer and approving their remuneration;
- Determining the strategic direction of the Group and measuring performance of management against approved strategies;
- Review of the adequacy of resources for management to properly carry out approved strategies and business plans;
- Adopting operating and capital expenditure budgets at the commencement of each financial year and monitoring the progress by both financial and non-financial key performance indicators;
- Monitoring the Group's medium term capital and cash flow requirements;
- Approving and monitoring financial and other reporting to regulatory bodies, shareholders and other organisations;
- Determining that satisfactory arrangements are in place for auditing the Group's financial affairs;
- Review and ratify systems of risk management and internal compliance and control, codes of conduct and compliance with legislative requirements; and
- Ensuring that policies and compliance systems consistent with the Group's objectives and best practice are in place and that the Company and its officers act legally, ethically and responsibly on all matters.

The Board's role and the Group's corporate governance practices are being continually reviewed and improved as required.

Whilst at all times the Board retains full responsibility for guiding and monitoring the Company, in discharging its stewardship it makes use of sub-committees. Specialist committees are able to focus on a particular responsibility and provide informed feedback to the Board.

To this end the Board has established the following committees:

- Audit
- Remuneration.

The roles and responsibilities of these committees are discussed later within this Corporate Governance Statement.

Management Functions

The Company has established the functions that are reserved for management. Management is responsible, on a shared basis with and subject to the approval of the Board, for developing strategy, and is directly responsible for implementing the strategies into the Company's business activities. Management is also responsible for safeguarding the Company's assets, maximizing the utilization of available resources and for creating wealth for Leyshon's shareholders.

Composition of Board

The Board comprises four Directors, being one executive Director and three non-executive Directors. The three non-executive Directors are considered to be independent. Therefore, the Board comprises a majority of independent Directors.

Director	Independent	Non-executive	Term in office
John Fletcher	Yes	Yes	5 years
Paul Atherley	No – Managing Director	No	7 years
Richard Seville	Yes	Yes	4 years
Andrew Berry	Yes	Yes	3 years

Evaluation of the Board, Committees and Senior Management

The Board has adopted a self-evaluation process to measure its own performance and the performance of its committees during each financial year.

Arrangements put in place by the Board to monitor the performance of the Group's executives include:

- a review by the Board of the Group's financial performance; and
- annual performance appraisal meetings incorporating analysis of key performance indicators with each individual to ensure that the level of reward is aligned with respective responsibilities and individual contributions made to the success of the Company.

Board Committees

Audit Committee

The Board has established an Audit Committee which operates under a charter approved by the Board. It is the Board's responsibility to ensure that an effective internal control framework exists within the entity. This includes internal controls to deal with both the effectiveness and efficiency of significant business processes, the safeguarding of assets, the maintenance of proper accounting records, and the reliability of financial information as well as non-financial considerations. The Board has delegated responsibility for establishing and maintaining a framework of internal control and ethical standards to the Audit Committee.

The Committee also provides the Board with additional assurance regarding the reliability of financial information for inclusion in the financial reports. The members of the Audit Committee during the year were:

Mr Andrew Berry (Committee chairman – appointed 19 March 2009)
Mr John Fletcher
Mr Richard Seville

Qualifications of audit committee members

Mr Berry's qualifications include a Master of Business Administration degree and he has more than 35 years financial experience mainly with Chase Manhattan Bank in the Far East and Australia. He is currently the Chairman of Viridis Investment Management Limited which is the Responsible Entity of the ASX listed Viridis Clean Energy Group and has been Non-Executive Director of several listed and unlisted Australian resource focused companies.

Mr Fletcher has acquired extensive international corporate experience in executive and non-executive directorships, including main Board Director of the Trafalgar Group ("Trafalgar") for more than 20 years, which at the time was one of the UK's largest industrial groups. In 1996, he was awarded the title of CBE (Commander of the British Empire) for his contribution to British industry.

Mr Seville is a mining geologist and geotechnical engineer with 25 years relevant industry experience. Mr Seville also has significant corporate experience and has held the roles of operations director and/or managing director for ASX/AIM listed companies since 1994.

A copy of the Audit Committee Charter is available on the Company's website.

Remuneration Committee

The Board is responsible for determining and reviewing compensation arrangements for the directors themselves and the chief executive officer and executive team. The Board has established a Remuneration Committee, comprising two non-executive directors. Members of the Remuneration Committee throughout the year were:

Mr John Fletcher (Committee chairman)
Mr Richard Seville

For details on the number of meetings of the Remuneration Committee held during the year and the attendees at those meetings, refer to the Directors' Report.

A copy of the Remuneration Committee Charter is available on the Company's website.

Nomination Committee

A separate Nomination Committee has not been formed. The Board considers that the Company is not currently of a size to justify the formation of a nomination committee. The Board as a whole undertakes the process of reviewing the skill base and experience of existing Directors to enable identification or attributes required in new Directors. Where appropriate, independent consultants are engaged to identify possible new candidates for the Board.

Independent professional advice and access to Company information

All Directors have the right of access to all relevant Company information, to the Company's executives and, subject to prior consultation with the Chairman, may seek independent professional advice concerning any aspect of the Company's operations or undertakings at the Company's expense.

Code of Conduct

The Board acknowledges the need for continued maintenance of the highest standard of corporate governance practice and ethical conduct by all Directors and employees of the Company.

The Board has adopted a Code of Conduct for Directors to promote ethical and responsible decision-making by the Directors. The code is based on a code of conduct for Directors prepared by the Australian Institute of Company Directors.

The principles of the code are:

- A director must act honestly, in good faith and in the best interests of the company as a whole.
- A director has a duty to use due care and diligence in fulfilling the functions of office and exercising the powers attached to that office.
- A director must use the powers of office for a proper purpose, in the best interests of the company as a whole.
- A director must recognise that the primary responsibility is to the Company's shareholders as a whole but should, where appropriate, have regard for the interest of all stakeholders of the company.
- A director must not make improper use of information acquired as a director.
- A director must not take improper advantage of the position of director.
- A director must not allow personal interests, or the interests of any associated person, to conflict with the interests of the company.
- A director has an obligation to be independent in judgment and actions and to take all reasonable steps to be satisfied as to the soundness of all decisions taken as a Board.
- Confidential information received by a director in the course of the exercise of directorial duties remains the property of the Company and it is improper to disclose it, or allow it to be disclosed, unless that disclosure has been authorised by the Company, or the person from whom the information is provided, or is required by law.
- A director should not engage in conduct likely to bring discredit upon the company.
- A director has an obligation at all times, to comply with the spirit, as well as the letter of the law and with the principles of the Code.

The principles are supported by guidelines as set out by the Australian Institute of Company Directors for their interpretation. Directors are also obliged to comply with the Company's Code of Ethics and Conduct, as outlined below.

Code of Ethics and Conduct

The Company has implemented a Code of Ethics and Conduct, which provides guidelines aimed at maintaining high ethical standards, corporate behaviour and accountability within the Company.

All employees and directors are expected to:

- respect the law and act in accordance with it;
- respect confidentiality and not misuse company information, assets or facilities;
- value and maintain professionalism;
- avoid real or perceived conflicts of interest;
- act in the best interests of shareholders;
- by their actions contribute to the company's reputation as a good corporate citizen which seeks the respect of the community and environment in which it operates;
- perform their duties in ways that minimise environmental impacts and maximise workplace safety;
- exercise fairness, courtesy, respect, consideration and sensitivity in all dealings within their workplace and with customers, suppliers and the public generally; and
- act with honesty, integrity decency and responsibility at all times.

An employee that breaches the Code of Ethics and Conduct may face disciplinary action. If an employee suspects that a breach of the Code of Ethics and Conduct has occurred or will occur, he or she must that breach to management. No employee will be disadvantaged or prejudiced if he or she reports in good faith a suspected breach. All reports will be acted upon and kept confidential.

Diversity

The Company takes a broad view of diversity covering ethnicity, age, cultural background and gender. During the next 12 months, the Company will develop and communicate its diversity policy.

Conflicts of Interest

In accordance with the Corporations Act and the Company's Constitution, Directors must keep the Board advised, on an ongoing basis, of any interest that could potentially conflict with those of the Company. Where the Board believes that a significant conflict exists the Director concerned does not receive the relevant board papers and is not present at the meeting whilst the item is considered.

Dealings in Company Securities

The Company's share trading policy imposes basic trading restrictions on all employees of the Company with 'inside information', and additional trading restrictions on the directors of the Company. Inside information' is information that:

- is not generally available; and
- if it were generally available, it would, or would be likely to influence investors in deciding whether to buy or sell the Company's securities.

If an employee possesses inside information, the person must not:

- trade in the Company's securities;
- advise others or procure others to trade in the Company's securities; or
- pass on the inside information to others – including colleagues, family or friends – knowing (or where the employee or Director should have reasonably known) that the other persons will use that information to trade in, or procure someone else to trade in, the Company's securities.

This prohibition applies regardless of how the employee or Director learns the information (eg. even if the employee or Director overhears it or is told in a social setting).

In addition to the above, Directors must notify the Company Secretary as soon as practicable, but not later than 5 business days, after they have bought or sold the Company's securities or exercised options. In accordance with the provisions of the Corporations Act and the Listing rules of the ASX, the Company on behalf of the Directors must advise the ASX of any transactions conducted by them in the securities of the Company.

Breaches of this policy will be subject to disciplinary action, which may include termination of employment.

A copy of the Company's Securities Dealing Policy is available on the Company's website.

Continuous Disclosure

The Company is committed to providing relevant up-to-date information to its shareholders and the broader investment community in accordance with its continuous disclosure obligations under the ASX Listing Rules and the Corporations Act.

The Board has implemented a Continuous Disclosure Policy to ensure that information considered material by the Company is immediately reported to the ASX Limited. Other information such as Company presentations are also disclosed to the ASX and are on the Company's website.

The Company's website provides access to all current and historical information, including ASX announcements, financial reports and other releases.

Shareholder Communication

In adopting a Continuous Disclosure Policy, the Board ensures that shareholders are provided with up-to-date information.

Communication to shareholders is facilitated by the production of the annual report, quarterly and half yearly reports, public announcements and the posting of all ASX announcements and other information on the Company's website.

Shareholders are encouraged to attend and participate in the Annual General Meeting of the Company. Shareholders may raise questions at the AGM and the external auditor is in attendance at such meetings to address any questions in relation to the conduct of the audit.

Risk Management

The Board is responsible for the oversight of the Company's risk management and control framework. Responsibility for control and risk management is delegated to the appropriate level of management within the Company with the Managing Director and Chief Financial Officer having ultimate responsibility to the Board for the risk management and control framework.

Areas of significant business risk to the Company are highlighted by the Managing Director and discussed at Board level.

Arrangements put in place by the Board to monitor risk management include regular reporting to the Board in respect of operations and the financial position of the Group.

The Chief Executive Officer and Chief Financial Officer have provided a written statement to the Board that:

- their view provided on the Company's financial report is founded on a sound system of risk management and internal compliance and control which implements the financial policies adopted by the Board; and
- that the Company's risk management and internal compliance and control system is operating effectively in all material respects.

ASX Best Practice Recommendations

The table below contains a list of each of the ASX Best Practice Recommendations and whether the Company was in compliance with the recommendations at the end of the year. Where the Company considers that it is divergent from these recommendations, or that it is not practical to comply, there is an explanation of the Company's reasons set out below the table.
