

**30 October 2015**

## **Quarterly Report September 2015**

Leyshon Resources Limited (AIM/ASX: LRL) ("Leyshon" or the "Company") activities during the quarter focused on identifying a new project opportunity for the Company. The board has also continued its focus on simplifying the Company's corporate structure and reducing costs.

### **New Project Opportunities**

The Company continues to pursue investment opportunities in the resources sector which are in line with the Company's stated investing policy. The Company's strategic objective is to identify projects that have a clear pathway to production or monetization and can generate high returns to shareholders. This will be achieved by leveraging the in-house expertise and track-record in identifying, acquiring, financing, developing and operating resource projects, and un-locking value. The Company's plan is to identify advanced or brown-field assets which have a high probability of being re-rated in the listed market.

As part of the Company's restructuring and continuing focus on expenditure reduction, Leyshon has also been engaging with key stakeholders in the Mt Leyshon mine site as it reviews the long term holding of this legacy asset.

Whilst the overall investment climate in the resources sector continues to be very difficult, asset valuations are currently substantially discounted, which we believe will provide an attractive investing opportunity at the bottom of the investment cycle. However structuring a transaction, at these low commodity prices, that meets the Company's requirements for return to shareholders has proved to be difficult. A number of opportunities are currently being studied, although none are at an advanced stage.

### **ASX Suspension Update**

The shares of Leyshon Resources have been suspended from trading on the Australian Securities Exchange ("ASX") since 14 July 2014 and will remain suspended. ASX policy, in accordance with Chapter 12 of the Listing Rules, is to allow companies that have disposed of their main undertakings a six-month period within which to satisfy ASX that the company has a sufficient level of operations to justify continued quotation of the Company's securities on the ASX. The Company was not able to satisfy the ASX that it was in compliance with Chapter 12 and was suspended from trading on 14 July 2014.

The Company envisages that its shares will remain suspended on the ASX until such time as the Company completes a transaction and seeks re-compliance for listing on the ASX.

With our available cash reserves, Leyshon is well positioned to pursue quality projects in accordance with its investment strategy. Every effort will be made to ensure we secure assets that are most likely to achieve the corporate objectives and strategic aims of the Company.

In the interim, the Company will continue to evaluate suitable investment opportunities and will keep the market informed of any material developments as they occur.
